TheGAW industries

# TESTIMONIALS AND PROJECTS

TESTIMONIALS

**Plant Manager, Oil Marketing Company in SADC - Africa**

“TheGAW's FTS and Steel distribution team (AmallGam Energy Alloys) has significantly contributed to the engineering and project development stage, resulted in reduced operational costs by 15% and improved transfer efficiency by 20% in our diesel storage terminal, by extending their arms instead of just being as a Steel and BOQ supplier. Their expertise and timely delivery were crucial to our project's success "

**Maintenance Manager, JIGPC Contr. - Saudi Aramco**

“TheGAW was a true partner for our JIGPC facility Shutdown Project. Their top-notch flange management tools and on-site machines weren't just equipment; they were solutions that empowered our team, making a real difference in our efficiency and safety. Their support was invaluable, helping us achieve a smooth and successful project completion."

**Project Manager, OMC in Africa**

“For our new terminal in SADC, TheGAW truly delivered their understanding of our unique needs and provided a solution that perfectly fit our project. TheGAW made a critical part of our new terminal seamless and highly effective."

**Terminal Manager, Tank Farm Managed by a reputed OMC in Beira, Mozambique**

"Before TheGAW stepped in, our tank farm in Beira was a constant juggle of manual errors, safety concerns, and high operational cost. But they didn't just share knowledge and install essential equipment; they brought us peace of mind. It feels like they gave our operations a new heartbeat, more reliable, safer, and incredibly efficient. We're not just seeing better numbers; we're experiencing a smoother, less stressful workday.”

**General Manager - Operations and Asset Management, 5PL Logistics, UAE**

"Partnering with TheGAW for our 5PL Logistics facility in the UAE was a strategic decision that truly paid off. Their expertise across critical areas, from the essential LV Room Waterproofing that safeguards our electrical infrastructure, to the vital Pump Room Electrical Rectification. A truly invaluable partner for facility management and maintenance"

**Project : Terminal Tank Expansion Project**
**Location : SADC, Africa**

- Manufacturing and Supplying Floating Suction Units (FSUs)
- Steel Material Supply
- Supply of Fluid Transfer Solutions
- Fire Fighting Equipment supply

**Project : Industrial & Logistics Projects**
**Loation : 5PL Logistics, UAE**

- LV Room Waterproofing Works
- Pump Room Electrical Rectification
- 1MW Backup Generator for Cold Warehouse

**Project : New Fuel Terminal construction project**
**Location : SADC, Africa**

Tailor-made 24 loading arms for efficient fuel loading and unloading operations, customized to project needs.

**Project : Automation of the existing manual fuel tank farm**
**Location : Mozambique, Beira**

- FGD Study, Gas and Liquid HydroCarbon Detectors
- Engineering and Manufacturing Thermal Flow Switch
- ATG System and High-Level Tank Alarms
- Automation of Flow Meters

**Project : Healthcare Facilities**
**Location : Abu Dhabi & Al Ain, UAE**

- Villa 14 Backup Power Installation (for Emergency Patients)
- Complete Generator Backup for 9 Villas (550 kVA with ATS Panels
- Complete Generator Backup for 26 Villas (Dual Generators with ATS Panles
- IPS Panel with Self-Powered Generator for Pediatric Rooms and Theatres

**Project : Saudi Aramco Shutdown Project**
**Location: Saudi Arabia**

Manufacturing and supplying flange management/asset integrity tools, including

- Hydraulic Torque Wrenches
- Manual Torque Wrenches
- Bolt Tensioners
- Hydraulic Pumps
- ATEX pipe cutting and flange facing on site machines.
- E&I consumables and Tool

**Project : Infrastructure & Commercial Facilities**
**Location : Abu Dhabi, UAE**

- KBR 10th, 15th & 18th Floor – Electrical Modifications & Upgradation
- Kent – Abu Dhabi Mall Electrical Works
- Khazna Tower 9th Floor – Electrical Modifications
- Blue Sky Tower – Electrical Fit-Out & Modification Works

**Project : UZGTL Turn Around 2024-25**
**Location : Qarshi, Uzbekistan**

- Engineering and Manufacturing Pressure Testing Skids
- Manufactured and supplied Joint Integrity and Flange Management Tools.
- Instruments for Testing and Commissioning.

**Project : Automation of the existing manual fuel tank farm**
**Location : Mozambique, Beira**

- FGD Study, Gas and Liquid HydroCarbon Detectors
- Engineering and Manufacturing Thermal Flow Switch
- ATG System and High-Level Tank Alarms
- Automation of Flow Meters

**Project : Green Field EPC of Chemical Process Plant**
**Loation : Malaysia**

- Engineering and consulting for Tank design.
- Engineering and Manufacturing Floating Suction Units.

**Project : Infrastructure & Commercial Facilities**
**Location : Abu Dhabi, UAE**

- KBR 10th, 15th & 18th Floor – Electrical Modifications & Upgradation
- Kent – Abu Dhabi Mall Electrical Works
- Khazna Tower 9th Floor – Electrical Modifications
- Blue Sky Tower – Electrical Fit-Out & Modification Works

**Project : Abu Dhabi DARB Toll Gantry.**
**Location : SADC, Africa**

- Engineering and Installation it LV Lines across the gantry.
- Power back up and complete Electrical and Instrumentation Works.

**Project : FTS and FF Jindal Coal Mine**
**Location : Tete, Mozambique**

- Engineering, Fabrication and supply of complete FF unit.
- Engineering the FTS system for lubricant and fuel management.
